I Brave men's tombs

In 1868, in the midst of the Boshin War, "Kanrin Maru" the shogunate army was on board the which was attacked by a new government force at Shimizu Port. Jirocho collected and buried the remains against the new government forces, which prohibited the recovery of the remains of the shogunate army. "Tesshu Yamaoka", a great man at the end of the Edo period who was impressed by Jirocho's actions, wrote the title "brave men' s tombs."

Shimizu Jirocho

Jirocho was the hero in Shimizu, who lived in the town at the end of the Edo period to the Meiji era. He led the followers as a man of chivalrous spirit, fighting against rivals, and arbitrating fights. With the Meiji Restoration, he began to engage in voluntary social service. In particular, he contributed to the development of Shimizu Port and the export of Japanese tea in Shizuoka. Even now, he has been popular among locals widely.

Shimizu has a lot of charm.

Old town atmosphere

Shimizu Port was originally a river port that flourished along the Tomoe River. You can still see the storehouses of that time.

Izu-Ishi stones

On the walls of the warehouses, you can see the Izu-Ishi stones with slightly bluish beige, ochre, and marbled colour. They're conveyed from Izu Peninsula, the east end of Shizuoka pref., long time ago. Now they have become invaluable for the locals.
